

D'FLORES HAIR STUDIO IN DRIPPING SPRINGS

Delia found her passion in hair, a creative outlet much like Dad's passion for food. Flores Mexican Restaurant has been and continues to be an influence in her life.

Delia comes from a family of 10 and is the daughter of Gonzalo Flores, Sr. and Magdalena Flores. She is the sixth of eight kids. Her dad started the family business when she was only 11 years old, and she has learned a strong work ethic from watching all her family work hard to make their company a success. With the love and support of her family, Delia ventured out to set her dream of being a hairstylist.

Delia Flores has been working with hair for over 15 years. It's a passion that runs deep.

"I started as a little girl when I bought a Scholastic braiding book and fell in love with the art of styling hair," Flores says. "When my first husband and father of two older sons passed away in a car accident, I realized that life is too short not to do what my passion is. So I left the family business of the restaurants to pursue my passion!"

Flores is a vibrant mother of four and is happily married to Jose Huerta. Her hair styling acclaim led to her being a CHI educator, which in turn led to her mastery of the art of hair coloring techniques. She earned her American Board Certified Color Specialist certificate in 2014. She recently became an Aquatech educator in formal up-styling and has continued to expand her knowledge about and passion for styling hair.

Delia has applied her expertise in prestigious salons such as Saks Fifth Avenue, Aziz Salon, and Day Spa. Flores connects with her clients on a personal level, and her success has led her to open her own studio.

D' Flores Hair Studio is celebrating two years in Dripping Springs. In 2016, the studio's first year, Delia was honored with an award for Dripping Springs Best Customer Service.

Delia Flores hopes to fulfill all your beauty needs.
