

SOLUTIONS PHARMACY **RX** Unique like you!

Susie of Dripping Springs knows all too well that filling prescriptions, understanding insurance, getting information about medication, and keeping her family healthy can be challenging and complicated. She's found a solution and partner in Solutions Pharmacy, Dripping Springs' new local compounding pharmacy in the Medical Towers at Sawyer Ranch Road.

"When my insurance changed, the staff helped get my medicine without skipping a day and patiently explained the changes," Susie says. "Every experience with Solutions Pharmacy has been excellent. The staff genuinely cares about me."

Solutions Pharmacy's motto is Unique Like You, and the staff is dedicated to building relationships with every patient and customer. "They know you by name, and you feel like they're looking out for you," Susie says. Staff members enjoy educating every patient about their medication, checking on patients when they take a new medication, and proactively sharing resources that may help patients.

Susie also appreciates that Solutions Pharmacy "makes things easy." The pharmacy offers **free delivery** to Dripping Springs and most of Austin and is committed to notifying patients when their medication is ready to be refilled and keeping them updated on the status of their prescriptions.

Through the pharmacy's **Medication Sync** program, the staff works with your doctors and arranges all your medications to be refilled at the same time to save you

trips to the pharmacy and help you stay compliant with your medication.

As a **compounding pharmacy**, Solutions Pharmacy custom makes medications in specific strengths or dosage forms like creams, liquids, and lozenges. The staff can even flavor medication to make it more palatable!

Dedicated to contributing to a healthy community, Solutions Pharmacy offers FREE programs:

FREE ANTIBIOTIC AND VITAMIN PROGRAM (Kids 12 & Under)

Owner James Montgomery believes "healthy kids make healthy communities." Solutions Pharmacy will fill most antibiotic prescriptions free of charge with a valid prescription and kids will receive free vitamins every month (daily chewable vitamin and mineral supplement).

DIABETIC CARE CLUB

Montgomery understands that "compliance with medication and treatment plans is critical to managing diabetes." So patients in this program receive one free meter, free test strips every month, support and resources from the pharmacist, and a discount on wellness supplements.

Visit this unique pharmacy and watch the team make custom medications in their laboratory. Shop quality supplement and wellness products while sipping on a coffee or smoothie made in the pharmacy's full-service coffee bar, the Acoffeecary! (See page 22 for a coupon.)
